

# Former Dumas Resident Announces Book Release

Terri L. Hall a former Dumas resident announces the release of her first children's book. The book is named "Denny and Denise - A Story of Two Ducks". Children of all ages are sure to love the true story of these two ducks. The publisher of the book is Publish America, Fredericksburg, Maryland, the nation's number one book publisher.

Terri and her co-author, Denise Babeaux wrote this book as a Christmas Gift in December of 2008 for Linda Babeaux the owner of the ducks. The book was such a big hit with the children and with the retirement center nurses and residents that Terri set out to find a publisher. Once the publisher was contacted the manuscript and photographs were submitted for review. After review of the material by the Publish America staff a contract was signed and the book was on its way to market.

The book illustrations are actual photographs of the two ducks and there are 50 photographs inset in this 42 page book.

The photographs are not just square captions inset but they are shaped like puzzle pieces which make a great feature for the book. The books official release date is August 29th and the books will be available at all *Borders* and *Barnes and Noble* locations.

The book is available now to purchase online at [www.publishamerica.com](http://www.publishamerica.com) or at the authors personal website at [www.babeauxhall.com](http://www.babeauxhall.com)
